WHY JETWAVE?

Australian based Jetwave Group is a brand of premium high pressure cleaning & water jetting equipment for a wide range of demanding cleaning applications.

Our vision is to be a leading esteemed and dependable quality high pressure water cleaning equipment manufacturer that adds value for our customers with innovative products that will; evolve our company and industry into a new era of development, growth and productivity.

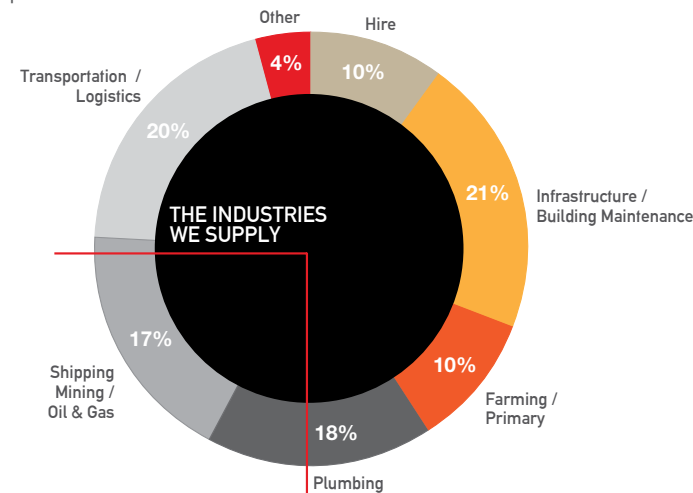

Jetwave is a specialist in designing and manufacturing industry and application specific purpose built high pressure cleaning solutions. We have designed and built high pressure water cleaners and drain cleaners / hydro-jetters for the mining, oil and gas, shipping, aviation, plumbing, government and councils, construction, primary / farming industries, just to name a few. We empower clients high pressure cleaning needs, incorporating expertise and development of innovative cleaning products. Through our market position and product strategy we maintain manufacturing flexibility to realise synergistic benefits in order to provide such purpose built cleaning equipment.

Jetwave has a number of core divisions such as business management, R&D, administration, human resources, financial management, sales, marketing, spare parts, service, fabrication and production. Individuals within our organisation have a single reporting line to a functional manager right the way up to the Managing Director. Jetwave's culture supports initiative, and a self-directed leadership style. The down to earth environment is results orientated, and our employees are passionate about making a tangible difference to cleaning the world.

Over the years Jetwave has developed and cultivated long term business relationships with industry leading brands as our key suppliers to ensure we maintain product superiority within the marketplace. As an OEM all of our products incorporate these industry leading components, of which we are authorised to distribute within Australasia.

Jetwave is invested in research and development and continuously listens to 'on the ground' feedback from customers of Jetwave products. Our primary purpose is to deliver value with innovative solutions to meet customers' changing needs within the industrial and commercial sectors.

Whether it is the need for equipment to utilise on a small specialty task, or the need for an ODM to customise high pressure cleaning equipment for heavy industrial applications, Jetwave takes pride in being able to deliver the most effective solution.

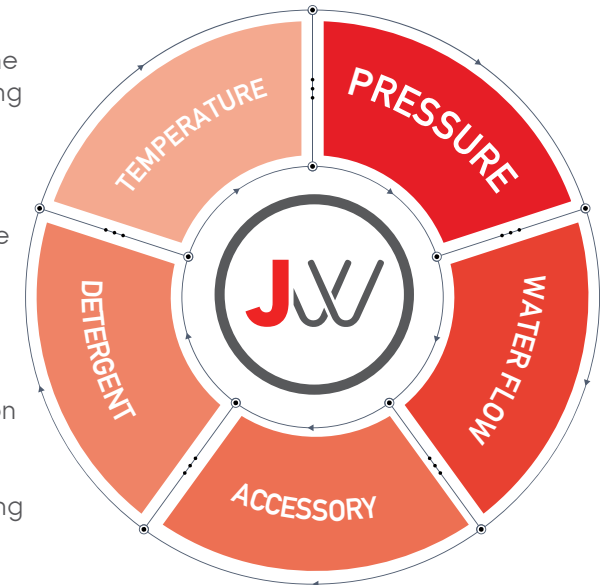

JETWAVE ABOUT US VIDEO

JETWAVE AIM: REDUCING TOTAL COST OF OWNERSHIP FOR INCREASED RETURN

Jetwave is not just committed to working with product quality and functionality. We are driven by the objective of reducing the total cost of ownership. Reducing cost of cleaning and increasing fleet return on investment (ROI) is our goal to optimising total cost of ownership in four key ways:

- 1. Cost of purchase of your cleaning solution:** We constantly strive to offer value for money – searching to keep machine cost down whilst providing the highest quality and absolute best feature levels is our aim.
- 2. High efficiency performance:** Ensuring that our solutions are efficient and have lowest possible run costs for their performance and real conditions. Stainless Steel Exoskeleton for combustion engine is a world first. Jetwave premium pumps and genuine global reputable brands all ensure that run costs such as fuel and service costs are minimized during use and ownership, more than ever before in such product.
- 3. Cost of Maintenance:** We focus on product design, component quality, durability and also on the cost of general maintenance in order to ensure that service costs are kept to a minimum during the lifetime of the machine.
- 4. Knowledge and Experience:** Our knowledge and experience of optimal cleaning methods ensure that we can advise the right cleaning solution for our customers. The right solution will always reduce cleaning time. Reducing cleaning time reduces labour, water, electricity and fuel costs – bringing down the total cost of ownership of the pressure cleaning products.

Application knowledge and productivity - the key to reducing Total Cost of Ownership

The key to reducing total cost of ownership is to bring down the running costs linked to any cleaning task. The quicker the task can be accomplished, the lower the run costs and the overall cost of cleaning. For any combination of dirt and surface material, different combinations of the 5 cleaning factors will increase cleaning efficiency.

RUN COST = Labour Cost + Water Cost + Fuel Cost + Electricity Costs + Detergent Costs.

'Endeavouring to be pioneers in the continual evolution of our industry'.

FEATURED HERO INNOVATIONS

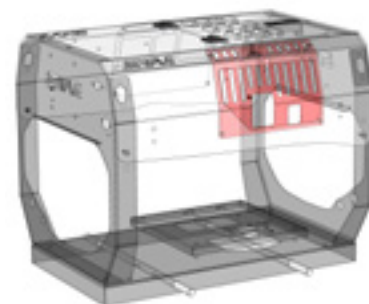

STAINLESS STEEL EXOSKELETON (PEXO™)

The industrial formed exoskeleton design provides enduring cover protection to the entire machine and importantly its critical working components protecting it from harsh outdoor weather elements and increases safety for the operator.

STAINLESS STEEL EXOSKELETON VIDEO

JETWAVE
PUMPS

ASK US ABOUT OUR NEW PUMP CATALOGUE

JETWAVE
PUMPS

IN MANUFACTURING COOPERATION

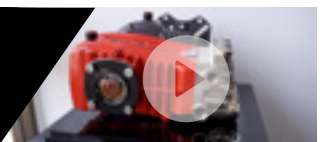

UDOR
WATER POWER

BENEFITS

- 1 NEW overall enhanced efficiency and aesthetic performance pump design.
- 2 NEW Extended/oversized rear crankcase to reduce oil temperatures and to run cooler for longer.
- 3 'Ni' Nickel treated brass forged manifold for anti-corrosion, and better resistance to fatigue
- 4 Magnetic oil drain plug to attract all microscopic material.
- 5 Red powder coated die cast aluminum crank case. Resulting in MORE Corrosion resistance.
- 6 Unique blended NBR seals for a longer life in heavy duty application.
- 7 Dust cover for seal protection in dirty environment.

JW PREMIUM PUMPS VIDEO

[FIND OUT MORE](#)

- 8 Glass fibre impregnated valve cages for higher temperature resistance
- 9 Oversized Plunger guide with 'step' diameter for longer seal life.
- 10 Large, easily visible oil level sight glass.
- 11 Oversized two piece Bronze Conrods (selected models) in special low friction bronze alloy to improve load distribution.
- 12 Premium quality bearings, for lower friction to ensure lower operating temperatures.
- 13 Teflon based gasket on rear cover to ensure better sealing at high oil temperature.
- 14 Extra thick solid ceramic pistons for greater durability to wear & thermal shock.
- 15 Stainless steel high volumetric efficiency inlet & delivery valves for greater cleaning performance

SALES SUPPORT & PRODUCT DOWNLOADS

At Jetwave we strive to give as much information and marketing collateral as we can to make selling a Jetwave product standout from the crowd and make success an easy process. From the initial quotation process through to installation.

With every product there is an associated 'Product Sheet' giving information on all the standout features and all the technical data on the back. As well as product sheets we also provide a 'Family Booklet' which delves more into the product and provides thorough information on the use case scenarios, detailed rich features, innovations and a list of all the accessories associated with the product. Lastly we provide in-depth 'Videos' on our Products, Accessories and Innovations to give visual information to an interested purchaser.

NOTES

EFI Honda Engine

V-Twin Honda engine electronically fuel injected, saving fuel and increasing performance.

Formed stainless steel cover to safeguard components and for work site safety.

Industry first customisable modular
build with precision heavy gauge, steel
chassis. Build it your way.

Easily accessible one panel front fascia mounted control(s).

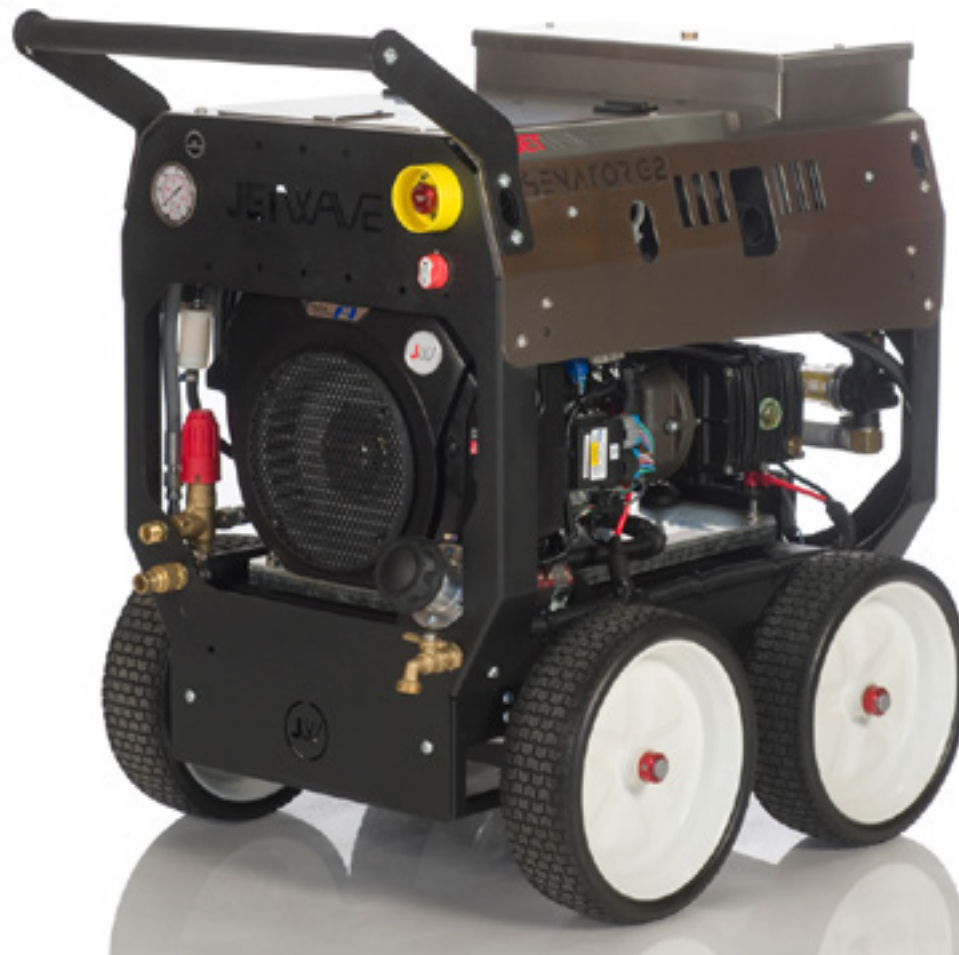

Anti-vibration protection system for quieter performance.

Tie down points for easy transportation.

Multiple hose reel configurations.

Australian Owned & Built

JETWAVE
POWERED BY
KOHLER
Diesel

The Jetwave® Hornet G2D™ heavy duty professional cold water diesel powered by KOHLER™ pressure washer is revolutionary in its design and innovation. Australian engineered and assembled using only the best quality Italian and global components; it offers an industry first multi configurable design to maximise space and efficiency.

HERO INNOVATIONS

Stainless Steel Exoskeleton (PEXO™)
Formed stainless steel exoskeleton to safeguard components and for work site safety.

Smart
Industry first customisable modular build with precision heavy gauge, galvanised then satin powder coated steel chassis. Build it your way.

Functional
Easily accessible singular panel mounted control(s).

Optimise
Anti-vibration protection system (AVPS™) for quieter performance.

Featured
J5000™ Durotech™ Gun for operator ease and longer life.

Versatile
Multiple hose reel configurations.

Weekly Usage

The HynoxTM range will blast away grease and grime with ease. Engineered and assembled using only the best quality Italian and global components.

STANDOUT FEATURES

Professional triplex pump delivers performance and longer life.

Low speed professional pump for increased reliability and longer maintenance intervals.

Total Stop Protection SystemTM (TSS) for operational longevity.

Vertical 90% fuel efficient environmentally friendly diesel fired hot water burner system.

Integrated accessory storage for cable, gun and lance.

Jetwave Safety SystemTM (JSS) to prevent over pressurisation.

Brass washable inlet water filter.

Professional line accessories.

Quality pressure gauge.

Brass adjustable unloader valve for user flexibility.

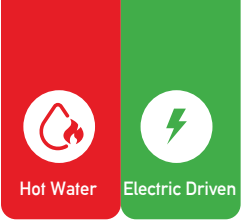

HERO INNOVATION

Protection
Stainless steel formed cover and chassis to safeguard the heart of your investment.

JETWAVE
POWERED by
HONDA™

The Jetwave® Explorer G2 heavy duty professional hot water petrol powered by HONDA™ pressure washer is revolutionary in its design and innovation. Australian engineered and assembled using only the best quality Italian and global components; it offers an industry first compact multi configurable design to maximise space and efficiency.

HERO INNOVATIONS

Stainless Steel Exoskeleton (PEXO™)
Formed stainless steel exoskeleton to safeguard components and for work site safety.

Smart
Industry first customisable modular build with precision heavy gauge, galvanised then satin powder coated steel chassis. Build it your way.

Functional
Easily accessible singular panel mounted control(s).

Optimise
Anti-vibration protection for quieter performance.

Convenient
Top lifting eyelets and forklift tyne pockets for onsite lifting ability.

Featured
J5000™ Durotech™ Gun for operator ease and longer life.

Versatile
Multiple hose reel configurations.

AUSTRALIAN
OWNED & BUILT
ESTABLISHED 1993

KOHLER
Diesel

The Jetwave® Explorer™ G2D heavy duty professional hot water diesel powered pressure washer is revolutionary in its design and innovation. Australian engineered and assembled using only the best quality Italian and global components; it offers an industry first multi configurable modular kit to maximise space and efficiency.

HERO INNOVATIONS

Stainless Steel Exoskeleton (PEXO™)
Formed stainless steel exoskeleton to safeguard components and for work site safety.

Smart
Industry first customisable modular build with precision heavy gauge, galvanised then satin powder coated steel chassis. Build it your way.

Functional
Easily accessible singular panel mounted control(s).

Optimise
Anti-vibration protection for quieter performance.

Convenient
Top lifting eyelets and forklift tyne pockets for onsite lifting ability.

Featured
J5000™ Durotech™ Gun for operator ease and longer life.

Versatile
Multiple hose reel configurations.

SHOWN WITH OPTIONAL TROLLEY, HOSE REEL & MINE SPEC KIT

FEATURED PRODUCT

PROFESSIONAL VACUUM CLEANER

CYCLONE

SPECIALTY

DAILY USAGE

The Jetwave® Cyclone features innovative 4 multi stage filtration the ideal vacuum for large quantities of fine dust and debris without clogging the filter. Guaranteed high productivity and suction performance until tank capacity is full with heavy duty tip trolley

NEW

- 4 Stages of Filtration
- Dust & debris diverted by deflector during downward rotation.
 - Fine powder drops to bottom.
 - 3 air and dust filtered by micro-filter bag.
 - 99.9% HEPA Filtration cleaned by CYCLONE.

HERO INNOVATIONS

- Black is Green**
75% recycled eco-friendly plastic.
- Filter Technology**
Larger surface area washable antimicrobial cloth filter to avoid fine dust proliferation.
- Chrome Steel Tube(s)**
Strong chrome steel poles for robust performance.
- Innovative Gasket**
Exclusive fusion casted in base seal to provide maximum resistance and durability.

Terms and Conditions of Sale

TERMS, CONDITIONS AND WARRANTY

Jetwave Group Pty Ltd trading as Jetwave warrants that, subject to the terms and conditions below, when its product is used for the purpose for which it is was designed, it will be free of material and manufacturing defects at the time of the original purchase. Any defects found of the product should be reported within the warranty period.

Our goods come with guarantee that cannot be excluded under the Australian Consumer Law. You are entitled to have the goods repaired or replaced if the goods, on our inspection, fail to be of acceptable quality and the failure does not amount to a major failure.

YOU MUST CAREFULLY READ THE INSTRUCTIONS SUPPLIED PRIOR TO USING ANY JETWAVE PRODUCT

All product is to be installed and operated in accordance with the instructions provided. This warranty will not apply if it is used in a manner other than in accordance with the instructions.

1. WHAT DOES THE WARRANTY COVER

Jetwave warrants its products to be free of defects in material and workmanship during the warranty period. If a product proves to be defective in material or workmanship during the warranty period, then Jetwave will, at its sole discretion repair or replace the product with a like product. Replacement product or parts may include re-manufactured or refurbished parts or components.

2. HOW LONG THE WARRANTY IS EFFECTIVE

This Jetwave product is warranted for 12 months for all parts from the date of the first consumer purchase. Should any parts fail as a result of a defect in material or workmanship within the specified period, the part will be replaced free of charge. This does not include travel charges, removal and re-installation charges.

3. HOW LONG THE WARRANTY IS EFFECTIVE LOCALLY

Please refer to the Warranty Schedule detailing the warranty period and coverage.

All Jetwave products warranty commences from the date of first consumer purchase.

Where this Jetwave product is sold for business purposes as defined in the relevant consumer protection law the warranty shall be for a period of six months from the date of purchase by the consumer.

4. WHO THE WARRANTY PROTECTS

This warranty is valid only for the consumer purchaser.

5. WHAT THE WARRANTY DOES NOT COVER

a. Damage, deterioration or malfunction resulting from:

- Accident, misuse, negligence, fire, water, lightning, or other acts of nature, modification or failure to follow instructions supplied with the product;

2. Repair or attempted repair by anyone not authorised by Jetwave;

3. Jetwave will not accept labour costs incurred by a service agent or customer without Jetwave's written consent. Consent must be provided by Jetwave's Service Manager and a purchase order number will need to be provided;

4. Any damage to the product due to shipment unless transit insurance is requested (Jetwave takes no responsibility for transport damage on a consumer's nominated account);

5. Removal or installation of the product;

6. Causes external to the product such as electric power fluctuations or failure;

7. Use of supplies or parts not meeting Jetwave specifications;

8. Normal wear and tear i.e. high and low pressure nozzles (including drain nozzles), high snap couplings;

9. High pressure hose(s) with damage such as cuts, snags, bruises, bulges and impact breaks and kinks);

10. Repair or replacement of tyres and wheels caused by:

i normal wear.

ii damage such as cuts, snags, bruises, bulges and impact breaks (from kerbs or potholes).

iii damage caused by a puncture or tyre repair.

iv damage caused by improper inflation or alignment and user abuse.

11. Product consumables i.e. mechanical seals, ceramic pistons, bearings, gaskets, electrical cables, filters, oil;

12. Any unauthorised changes or tampering or partial disassembly of the product by any unauthorised repairers not authorised by Jetwave;

13. Water ingress or exposure to abnormal corrosive conditions, abrasive chemicals or "run dry" conditions;

14. Hot water high pressure water cleaners – excess smoke due to blocked filters, contaminated fuel, worn injector nozzle, worn electrodes, excessive carbon build up on heating coil and a lack of general servicing;

15. Any other cause which does not relate to a product defect i.e. broken gun and damaged lances caused by operator misuse.

b. Damage caused to the product as an arising from the use of another manufacturer's product.

c. Water ingress, ingress of insects or invertebrates or foreign bodies causing an electrical malfunction. Care should be taken to avoid this occurrence.

d. Products supplied but not manufactured by Jetwave.

1. Petrol / diesel engine warranty claims for:

i. Yanmar (Power Equipment) (call 1800 069 469 for your nearest service agent)

ii. Briggs & Stratton (call 1300 274 447 for your

nearest service agent)

iii. Honda MPE (call 1300 559 846 for your nearest service agent)

should be made directly to the engine manufacturer and warranty cover is subject to their terms and conditions;

2. Battery warranty claims for should be made directly to Delkor Batteries. A 12 month warranty applies and for your nearest agent refer to www.delkor.com.

e. Products that are not installed in accordance to the owner's manual.

f. Damage to, or failure of, the product resulting from low or high voltage with the use of an incorrectly sized extension lead or a coiled electrical extension lead.

g. General service and maintenance, which includes oils and filter.

6. LIMITATION OF LIABILITY

To the extent permitted by law, Jetwave liability for breach of a guarantee implied by any law in relation to goods Jetwave supplies that are not of a kind ordinarily acquired for person, domestic or household use or consumption, except for implied guarantees as to title to goods supplied, a purchaser's right to undisturbed possession of goods supplied and undisclosed securities over goods supplied, is limited to the replacement of the goods, the payment of the cost of replacing the goods or the payment of the cost of acquiring equivalent goods.

7. EXCLUSION OF DAMAGES

To the extent permitted by law, Jetwave liability is limited to the cost of the repair or replacement of the product. Jetwave will not be liable for:

a. Damage to other property caused by any defects in the product, damages based upon inconvenient, loss of use of the product, loss of time, loss of profits, loss of business opportunity, loss of goodwill, interference of business relationships, or other commercial loss, even if advised of the possibly of such damage.

b. Any other damage arising as a result of weather or natural disaster.

c. Any claim against the customer by any other party.

8. GOODS RETURNED POLICY

Return of goods for credit must be approved in writing, otherwise it will not be accepted. There is no obligation for Jetwave to accept goods returned for credit without prior approval. A return authority label must be attached to the outside of the box.

a. If approved the goods must be returned in their original packaging, unused and no more than 30 days old.

b. Freight must be prepaid and on sent via a track and trace service as proof;

c. Jetwave will not accept any returns that are not by a track and trace service, such as Australia Post;

d. Obsolete products are not eligible for return;

e. Goods returned must be accompanied by a copy of the original purchase receipt and a written statement including the original invoice number, the date of purchase and detailed reason for return;

f. Inspection by warehouse must take place to ensure all parts and accessories are returned in full.

g. Custom special built, made to order goods, cannot be returned.

Credit value of the goods returned will be at the discretion of Jetwave. A 10% restocking, repackaging, documentation and administration will automatically be deducted from the credit value.

9. DELIVERY OF GOODS

Delivery of goods is when the customer or customer's agent takes possession of the goods at Jetwave's address or if the goods are delivered to a nominated address, even if the customer is not present at time of delivery.

If the customer is unable to take delivery of the goods for whatever reason; Jetwave is entitled to charge a reasonable fee for storage and re-delivery.

The cost of delivery is in addition to the cost of the goods.

The customer has 7 days to check all goods received, that they are in good working order, any damage resulting from transport and if any parts are missing.

10. PROOF OF PURCHASE

Jetwave reserves the right to reject any warranty if no proof of purchase is provided. A valid proof of purchase will be requested by the service agent prior to any works being carried out by the Jetwave service agent.

A valid proof of purchase includes the following:

- Tax invoice from place of purchase.
- Tax receipt from place of purchase.

11. SPARE PARTS

Spare parts are stocked for a reasonable period of time following last production. Jetwave does not warrant that spare parts will be made available for the whole of the reasonable period and reserves its right to cease supplying spare parts, or providing facilities for repair of spare parts in circumstances which are beyond its control including the requirement to remove spare parts from sales as a consequence of changes in the law or otherwise as it deems fit.

12. GENERAL MAINTENANCE

It is the responsibility of the consumer to ensure the product is free from general debris, any foreign matter and weather exposure.

It is the responsibility of the purchaser to ensure

that the equipment is maintained and serviced according to the maintenance schedule.

For general service and maintenance please refer to your nearest dealer and/or Jetwave authorised service agent.

13. DEFINITIONS

13.1 Workshop warranty

As per the warranty schedule any Jetwave product that is determined to be a workshop only warranty means; if deemed faulty the product must be taken or freighted at the consumer's cost to the Jetwave Head Office on our instruction or nearest Jetwave service agent. The consumer is able to request an infield service/repair (if available in the consumer's area); however this would be at the consumer's own cost.

Any workshop issues deemed to be no fault/ cause of the Jetwave product will result in all associated costs to the service provided be invoiced to the consumer and will not be covered under the Jetwave product warranty.

The workshop warranty covers faulty parts for a period of 3 months from the date of repair.

13.2 Replacement warranty

As per the warranty schedule any Jetwave product that is determined to be a replacement warranty means that the service agent will fully replace the faulty Jetwave product at no cost to the consumer if deemed warrantable.

The faulty product must be taken to the closest Jetwave service agent for replacement warranty otherwise all costs associated will be at the consumer's cost and is not covered under the Jetwave product warranty.

14. EFFECTIVE LAW

This warranty gives you specific legal rights, and you may also have other rights which vary depending on where the product was purchased and the consumer protection law that applies in that state or territory. Nothing in this warranty limits or restricts, or is intended to detract from, any right or remedy which the purchaser or ultimate user of the product may have pursuant to Australian federal or state consumer protection legislation.

Jetwave Group warranty Terms and Conditions are governed by the laws of the state of South Australia and the parties hereby submit to the jurisdiction of the Courts of this state and the resolution of any dispute under this agreement. The terms of this warranty policy may be inconsistent with the warranty statement in the products owner's manual. To the extent of any inconsistency the terms of this warranty state prevail.
